I am a recent full-time software engineering bootcamp grad with skills in front-end and back-end web development. After my previous career as an overseas professional basketball player ended I began looking for a new passion off the court. I have found that passion in building and maintaining well designed websites that have a great user experience written with clean and reusable code. In this next phase of my career, I seek a role as a frontend web developer at a company where I can work on solving problems that help make websites function more efficiently for everyone involved as well as learn, grow, and continue to master my craft.

SKILLS:

- HTML
- CSS
- JavaScript
- React
- Bootstrap
- Node
- mongoDB
- express
- Heroku
- django
- AWS
- RESTful API
- postgresSQL

PROJECTS:

- [Portfolio](https://jordanstotts.herokuapp.com/) (<https://jordanstotts.herokuapp.com/>)
- [GitHub](https://github.com/jordanstotts) (<https://github.com/jordanstotts>)

WORK EXPERIENCE:

Production Coordinator, September 2020 – December 2021

InterContinental Capital Group, West Des Moines, IA

- Helped manage pipeline of 15-20 FHA, VA, and USDA loans per month
- Assisted with inputting borrower information, communicate with clients as necessary, as well as ordering third party documentation
- Worked with management to provide support in various stages of the lending process for loan officers and processors

Professional Basketball Player, December 2016 – May 2020

Ocklebo Basketball Club, Starlites Basketball Club, Moncton Miracles, Europe and Canada

- Played professional basketball at the highest level in Sweden, Malta, and Canada
- Trained every day in season with the teams as well as on my own during each off season
- Attended team appearances that included coaching

Event Staff, October 2013 – May 2016

Sioux Falls Pentagon, Sioux Falls, South Dakota

- Performed tasks such as ushering, ticketing, program distribution, and general customer service
- Assisted with youth basketball and volleyball tournaments on weekends
- Helped set up for all major events held (G-League basketball, MMA fights, music concerts, etc.)

EDUCATION:

Software Engineering Immersive Bootcamp, General Assembly

Remote, December 2021 - March 2022

Bachelor of Arts

Sports Management Degree with a Minor in Entrepreneurial Studies

University of Sioux Falls, Sioux Falls, South Dakota

Cumulative GPA 3.3
